Nextel Direct Connect

Get Your Phone Ready

> Make Sure the SIM Card Is Inserted

Your SIM (Subscriber Identity Module) card is a small card inserted into the SIM card holder within your phone. You should never need to remove or insert the SIM card. If you need to do so, please consult the phone's User Guide.

1. With your thumbs, press down on the battery cover on the back of your phone and slide the cover up toward the antenna to release it.
2. Ensure that the SIM card is inserted in the slot below the battery compartment.

If no SIM card came with your phone, contact Nextel Customer Service at **1-800-639-6111**.

> Insert the Battery

1. With the battery cover removed (see step 1 above,) insert the battery into the battery compartment and gently press down until it clicks into place.
2. Replace the battery cover.

> Charge the Battery

1. Plug the phone charger into an outlet.
2. Plug the other end of the charger into the phone's charger connector.

> Activate Your Phone

If you bought a phone at a Sprint Store, it is probably activated and ready to use. If it is not activated, call Nextel Customer Service at **1-800-639-6111** from any other phone.

- Press  to power the phone on.
When your phone powers up the first time, it performs a series of security checks. For example, it verifies the phone is Nextel-approved and the correct SIM card is installed. If you don't pass the security checks, your phone displays messages and screen prompts showing what to do next. For example, you may be prompted to update your browser information: following the onscreen instructions, press the left softkey (**OK**) to complete the task.

If you continue to encounter security messages, call Nextel Customer Service at **1-800-639-6111** from a landline phone.
